

THIRD MEETING SPECIAL INTEREST GROUP

DATE:

Thursday, June 29th, 2023
09.00 – 18.30

PLACE:

University of Fribourg
PER 21 A120
Bvd de Pérolles 90

CONTACT:

chantal.rodriquez@unifr.ch

AIMS:

CANoP (Cognitive and Affective Neuroscience of Pain; a special interest group of the Swiss Pain Society) aims to:

- Stimulate scientific exchange among researcher in Switzerland who study cognitive or affective aspects of pain;
- Promote a scientific network and collaborative initiatives;
- Enhance the visibility of the different groups and obtain an overview of current research in this field in Switzerland.

We welcome students, clinicians and researchers from any related field.

SCIENTIFIC COMMITTEE:

Prof. Dr. C. Martin Sölch; Prof. Dr. P. Schweinhardt, Prof. Dr. C. Berna Renella

POSTER ABSTRACT SUBMISSION:

until June 1st, 2023

For submission details, see

<https://swisspainsociety.ch/en/2023/04/11/sps-meeting-sig-canop-june-2023/>

REGISTRATION:

until June 15th, 2023

<https://forms.gle/wKDH2kwwUHKpeE827>

COSTS:

full price: CHF 80.-

reduced price for students/trainees: CHF 45.-

We provide an attendance certificate for continued education with:

SPS: TBD | **SAPPM/ASMPP:** TBD | **FSP:** 7 Credits | **LNDS students:** Credit validation according to the specific instructions in the poster guidelines.

PROGRAM

08.55	Welcome	The organizers
09.00	Keynote 1 Social influences on pain and affect	Leonie Koban, Lyon
10.00	The role of GABA-related intracortical inhibition for a "healthy brain" and pain management	Wolfgang Taube
10.10	Insights in the dynamics of the GABAergic EEG markers under experimental pain and analgesic interventions: preliminary results	Joelle Chabwine
10.20	Joint Discussion	
10.30	Coffee break	
11.00	The hurtful side of the unknown. The role of uncertainty in the assessment of one's own and others' pain	Corrado Corradi-Dell'Acqua
11.10	The neurobiology of chronic pain's imprints on the human brain	Bogdan Draganski
11.20	Dysfunction and restoration of the dopamine and reward system in fibromyalgia	Chantal Martin Soelch
11.30	Joint Discussion	
11.50	Lunch break and poster session	
13.00	Keynote 2 Reaching circuitry level of understanding of the comorbidity between chronic pain and mood disorders	Ipek Yalcin, Strasbourg
14.00	Exploring the Mind's Map of the Back and its Restructuring in Chronic Low Back Pain: latest results.	Michael Meier
14.10	Top-down influences on central sensitization	Petra Schweinhardt
14.20	Stress, affects and pain perception in everyday life of patients with primary and secondary pain	Katharina Ledermann
14.30	Joint Discussion	
14.50	Coffee break	
15.20	Presentation of 3 posters selected for poster prize competition	
15.50	On the Feasibility of Augmented Reality Biofeedback for Chronic Pain – Insights from the HEART Trial	Oliver Kannape
16.00	Investigations of hypermobile Ehlers Danlos Syndrome: sensory profiles and stress response	Chantal Berna Renella
16.10	Ongoing research projects in patients with chronic pain in Geneva University Hospitals	Vasileios Chytas
16.20	Joint Discussion	
16.50	Closing and introduction to the social event	
17.00	Apéro and Social event for the students and Pls	Aurore Fernandez
18.30	Announcement of poster prizes	
19:00	Speakers Dinner
