

Explore opportunities in the Graduate Program @ ALPIQ

Join us for a livestream where we delve into the exciting world of our graduate program at Alpiq. Discover how you can be part of shaping the future of energy as we discuss the unique opportunities, projects, and career paths available. Hear from our current graduate as he shares his experiences and insights. Especially if you are interested in IT, this livestream is your chance to explore how our graduate program can start your career in the energy sector.

Why should you join the live stream:

- get all details on the current graduate programs that we offer
- explore your career opportunities at Alpiq
- insights on the application process and on the program in general
