

# Summer talks in BioMedical Engineering

July, Tuesday 16, 11h30; PER21 room G140

Join the meeting via Teams:

Meeting ID: 391 197 114 528; Passcode: nnyvRw

**11h30: Zheng Hu, PhD, Professor of Medical Science**

**Development of a pig bioreactor supporting robust human hematopoiesis for large-scale production of functional human immune cells**

National-Local Joint Engineering Laboratory of Animal Models for Human Diseases. The First Hospital of Jilin University Changchun

Email: [zhenghu@jlu.edu.cn](mailto:zhenghu@jlu.edu.cn)

**12h10: Golnaz Karoubi, PhD, Assistant Professor**

**Tissue Engineering Approaches for Airway Regeneration**

University of Toronto and University Health Network

Email: [golnaz.karoubi@utoronto.ca](mailto:golnaz.karoubi@utoronto.ca)

SCIENCE AND MEDICINE

Host:

Marie-Noelle Giraud, PhD, Department EMC  
Carmen Gonelle-Gispert, PhD, Department MSS, HFR  
Pr Léo Bühler, Department MSS, HFR
