

DIRECTION OF IT - SUPPORT TO RESEARCH

Dr. Hugo Najberg

Methodology and statistics

Helping with the experimental design and statistics through every stage: fund grant application, ethics protocol, peer-reviewed papers, registered reports.

stat-method@unifr.ch

Dr. Corentin Wicht

REDCap: Data collection, storage and archival

Supporting UniFR and HFR researchers in (clinical) research data management: data collection, storage and archival in accordance to human research laws (HRA, GCP, etc.).

redcap@unifr.ch

Alrick Deillon

Educational Databases. EDDB

EDDB is an innovative web platform for researchers to collaboratively create and manage relational databases, offering flexible configuration, role management, and full API integration.

eddb@unifr.ch

Dr. Pawel Bednarek

High Performance Clusters

Management and administration of high performance data centers for any project requiring heavy computations.

Request form in the link:
www.unifr.ch/it/fr/cluster-a-haute-performance.html

Dr. Champak Reddy

Virtual Machines

Setup virtual machines and provide support upon researchers' request to meet their requirements.

Request form in the link:
www.unifr.ch/it/fr/machines-virtuelles.html

Rehan Mulakhel

Limesurvey

A software program for creating online polls and surveys.

survey@unifr.ch
