

Dear colleagues, please accept our cordial invitation to the

Fourth Colloquium
of the Department of Social Sciences

taking place on

Monday May 28, 2018

15h15–17h00

in the room **G314 (PER21)**.

This series of colloquia is intended to provide members of the **Department of Social Sciences at the UNIFR** an interdisciplinary platform for discussions, criticism, feedback, and hopefully also creating a basis for possible collaborations.

The subject of our fourth meeting will be **Lorène Piquerez's** PhD thesis in sociology: *Veterinarians' Reactions to Antibiotics and Alternative Treatment Methods in Switzerland and France* (in French with English slides).

We are looking forward!

Jakub Mlynář & Luisa Piart
