

INAUGURAL MEETING  
SPECIAL RESEARCH INTEREST GROUP

**Date:** January 31<sup>st</sup>, 2019, 09:00 -17:00

**Place:** University of Fribourg, PER22 Joseph Deiss, Bvd de Pérolles 90

**Aims:**

Cognitive and affective neuroscience of pain is a developing field of science, interconnecting psychology, medicine and the neurosciences. The aims of the inaugural meeting of CANoP (Cognitive and Affective Neuroscience of Pain; a special interest group of the Swiss Society for Pain Research) are to:

- Stimulate scientific exchanges among researchers in Switzerland who use cognitive and affective methods to investigate pain;
- Promote a scientific network and collaborative initiatives;
- Enhance the visibility of the different groups and obtain an overview of current research in this field in Switzerland.

We welcome students, clinicians and researchers from any related field.

**Poster submission:** until January 1<sup>st</sup>, **Registration:** until January 15<sup>th</sup>, 2019 both at [chantal.rodriquez@unifr.ch](mailto:chantal.rodriquez@unifr.ch)

**Costs:** Full price: CHF 80.- , reduced price: CHF 45.-

**Scientific committee:**

Prof. Dr. C. Martin Sölch; PD Dr. P. Schweinhardt, Dr. C. Berna Renella

We provide an attendance certificate for continued education. Validation for **LNDS students** according to the specific instructions in the poster guidelines.

**PROGRAM**

09:00	Welcome words from the scientific committee
09:15	<b>Keynote speaker conference: Prof. Dr. Christian Büchel</b> University Medical Centre Hamburg-Eppendorf, Department of Systems Neuroscience, Germany
10:00	Coffee break
10:30	PD Dr. P. Schweinhardt (UNIZH) <i>The interaction between pain and reward</i>
10:45	Prof. Dr. C. Martin Sölch & Dr. K. Ledermann (UNIFR & UNIZH) <i>Dopamine function and reward processing in chronic pain</i>
11:00	Dr. J. Chabwine (UNIFR) <i>The GABAergic system as a potential target in cognitive and emotional aspects of (chronic) pain</i>
11:15	Yoann Stussi on behalf of Prof. Dr. D. Sander's lab (UNIGE) <i>Enhanced Pavlovian aversive conditioning in humans: Possible implications for pain treatment</i>
11:30	Dr. M. Meier (UNIZH) <i>Pain-related Fear – one or many?</i>
11:45	Lunch break and poster session
13:15	<b>Keynote speaker conference: Prof. Dr. Irene Tracey</b> Nuffield Department of Clinical Neurosciences, University of Oxford, UK
14:00	Prof. Dr. P. Vuilleumier (UNIGE) <i>Cognitive and affective modulations of pain processing</i>
14:15	Prof. Dr. C. Corradi Dell'Acqua (UNIGE) <i>From Social Neuroscience to clinical practice. The many neural facets of professional pain management</i>
14:30	Dr. N. Silvestrini (UNIGE) <i>Investigating the interactions between pain and cognitive control</i>
14:45	Coffee break
15:15	Dr. C. Berna Renella (UNIL) <i>Cognitive pain modulations: from the lab to the clinic</i>
15:30	Prof. Dr. J. Gaab (UNIBAS) <i>Placebo without deception: Open label vs. deceptive placebo</i>
15:45	Dr. M. Brügger (UNIZH & ETHZ) <i>Pain research involving hypnosis: knowns, unknowns and future perspectives</i>
16:00	Scientific Speed Dating
16:45	Closing remarks
17:00	End of meeting
