

We are pleased to invite you to our information session with workshop.

## Event: European R&I Funding Opportunities in Advanced Materials and Plastics

Last calls in the area of Advanced Materials and Plastics under Horizon 2020!

**When? Wednesday, August 28, 2019, from 9:30 – 14:30**

**Venue? Fribourg, Bluefactory**

The event is designed for researchers from academia and industry and other stakeholders involved with these subjects, and interested in the upcoming calls in the field of Advanced Materials and Plastics. In the Plastics section a variety of call topics on different aspects of Plastics will be presented, all contributing to the implementation of the "European Strategy for Plastics in the Circular Economy".

The objectives of this event are two-folds: it aims at informing about 2020 calls on Advanced Materials and Plastics, and providing hints on how to draft a competitive proposal.

After the informative part dedicated to Horizon 2020 (including the knowledge sharing of Prof. Koopmans, a successful applicant), participants will split up into two different working groups according to their needs and level of experiences with Horizon 2020.

### Agenda:

9.30 - 12	Welcome – Doris Kolly, Euresearch Region Fribourg & Valais Presentation of the Swiss Plastics Cluster – Aurélie Auffret, Swiss Plastics Cluster Introduction to H2020 and Opportunities on Advanced Materials – Dr Cornelia Spycher, NCP NMBP & SEWP - Euresearch Network Office Opportunities on PLASTIC – Dr Judith Zbinden, NCP ERC and Climate - Euresearch Network Office Invited testimonial – Prof. Rudolf Koopmans, Plastic Competence Center, HES-SO Get to know
